WORK EXPERIENCE

Kansas City Current

Oct 2024 - Present

I work as a Multimedia Coordinator for the Kansas City Current. My duties include filming, editing, and photography to create content for the club's social channels, in-stadium boards, and internal needs. My work is done in collaboration with our marketing team and organization as a whole, and we have consistently been a league-leader in engagements and social value over the course of my time at the club.

Penn State Athletics

June 2023 - Oct 2024

I worked as a videographer/editor for Penn State Athletics, capturing footage for all 31 Division 1 teams on campus. I worked closely with others to edit and produce content for each team's social media accounts, recruiting needs and in-venue videos. Prior to becoming full-time, I worked part-time as a student for the Athletics department as a videographer and graphic designer from January of 2020 - May of 2023.

The Daily Collegian

Sep 2019 - Apr 2023

I began work at Penn State's longest-running student news outlet as a Videographer and Graphic Designer on the Multimedia staff, where I filmed and edited original news stories, and designed web and print graphics. I then became the Multimedia Editor for 7 semesters, managing a staff of Videographers, Podcasters and Graphic Designers, while running the Collegian's Instagram, YouTube and Soundcloud accounts.
